Mattresses in memory foam

# Magic memory

The internal composition of the core develops a stiff and compact resting surface.

SUITABLE FOR ADJUSTABLE BED BASES  
Mattress height: 21-22 CM.

REMOVABLE COVER.

N.B.: Covers with widths up to 120 cm will fit into a household washing machine.

## 1\_ EXTERNAL COVER

In SILVER fabric: the presence of silver fibres in the weft of the fabric allows greater sanitisation of cover at every wash. Complete with volumetric fabric band and handles, it can be divided into two parts and is machine washable at 60°C.

## 2\_ PADDING

In breathable, hypoallergenic fibre.

## 3\_ SECOND COVER

To protect the core, it is removable and is made of 100% pure cotton, washable at 60°C. It allows the mattress to be used even when the main cover has been removed.

### MODELLING CORE

Shaped, notched and perforated, it is made up of three layers:

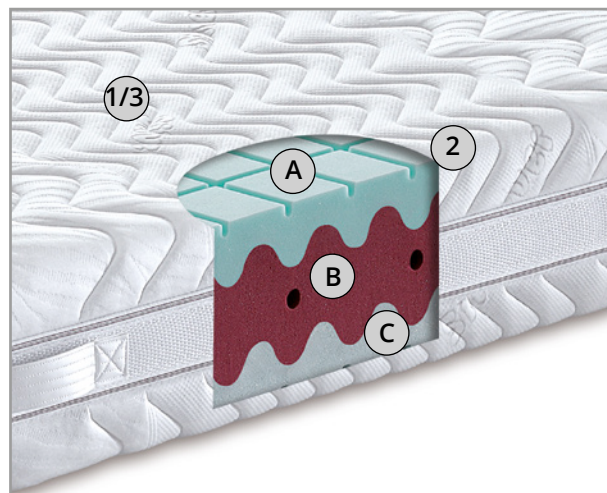

**A.** Upper side in 5 cm thick MEMORY FOAM that reduces pressure points to a minimum and promotes good blood and lymphatic flow. It moulds itself and distributes the weight of the body over the entire surface.

**B.** Central insert, NON-DEFORMABLE, notched and perforated to evenly distribute the pressure in critical parts of the body and guarantee maximum support.

**C.** Bottom sheet in ACQUATECH, special high density polyurethane foam with high flexibility that guarantees a more reactive resting surface.

FITTED WITH HANDLES

VOLUMETRIC BAND TO CONTROL HUMIDITY AND AIR PERMEABILITY.

Differentiated support surfaces
